Cut and Mail the card below and learn how to practice Epigenology Medical as a home based business. Registered and Licensed as certified Epigenologist practicing in your area or globally online as a preventive Health Care Service. Helping yourself and others live a better life, it saved mine, yours?

Earn \$1,200 (Plus or minus) per Wk as a home based business as a licensed Epigenologist helping yourself & others live a better Life. This is an opportunity of a life time able to determine a person's health, Psychological (relationships) issues and natural inherited abilities, etc. Data that can define the difference between success and failure, helps with business choices, education and interpersonal relationships, etc.

Epigenology Medical is a practical and Scientific University proven symptomatic and Epigenetic method of assessing complex Hands & Wrists with ease and without a medical degree. Performing Physical, Visual and touch testing including Q & A in extracting unique features of the hands & wrists in 3 easy steps. Then the corresponding exam numbers are recorded on a clients worksheets. It's our processing center that interprets the exam numbers for the Epigenologists including controlling an infinite number of variations for the Epigenologist's clients's.

Diagnosing health, Psychological and work related hand & wrist issues as well as Epigenetic issues and other matters. Epigenetics is a University proven whereby its our environment that creates HOX Genes clouding our original genes so that humans can survive that environment. All while a person lives their lifestyle defined in the exam as Dematoglyphic Epigenetics.

Thanks to the author anyone the Exam files can now be downloaded for **FREE** allowing anyone to begin practicing ASAP. After we approve your skills sets anyone you can be Certified & Licensed) with the power of any medical professional without having a medical degree but it does help. It's available to today go to "www.epigenologymedical.com" to learn more!

Epigenologist Medical PDF User Manual is a tool that can be installed on any Laptop & Desktop computers (Macs preferred), iPads (Tablets). Able to examine any Hand & Wrist anywhere regardless of its complexity with very little Effort. Simple to use whereby its examination complexity is chronologically controlled for the Epigenologist. Engineered with simplicity of use in mine totally non-invasive unbiased methodology. In other words, the examiner does not know what is being extracted from their clients Hands & Wrists. This is why you can examine yourself, friends and associates developing an honest feed-back of their assessments. All that is required of the Epigenologist is to learn three simple instructions: Identify, record (On a work sheet) unique descriptive features then send them to a processing center to generates reports sent to clients.

There are several kinds of examinations. **Exam-1** "performs symptomatic and Epigenomic testing (Nails, skin texture, joints and wrist motions to name a few including Epigenetic character traits." **Exam 2, 3 & 4** examines Epigenetic Dermatoglyphic Descriptive Interpretations. EG: Life Issues, Work & Career ethics Issues unusual issues such as being neurotic angry and intuitive. and much more. Its that simple.

I created Epigenology Medical to act as a catalyst between lay-people and Medical Professionals so to Speak. In its ability to examine the complexity of the human hands & wrist without any medical knowledge. Sincerely, Gerald E. Picard, author
